(10.4.19)

# Lavandula SuperBlue

## Early Crop Tip:

- The key to an early crop of SuperBlue is to start with a non-vernalized liner and keep it actively growing

### **Group 1**

Planted: wk 11

Photo: wk 23 (6.7.19)

Vernalized 30c

Non-vernalized 72c

# Lavandula Annet

## Features:

- Sturdy, upright stems holds up well to shipping and make it an excellent choice for bouquets
- A good follow up to earlier crops of SuperBlue for a variety of lavenders all season long

# Lavandula Annet

Group	Transplant	Pinch	Ship	Weeks to Finish
2	17	none	29	12
