DARWIN PERENNIALS®

PERENNIALS WITH STAYING POWER™

QUALITY AND CONSISTENCY YOU CAN RELY ON

Welcome to the 2021 Darwin Perennials® catalog. Every year we work to improve our processes and products with a single aim – to support your growing success. Completed just in time for 2021, our latest upgrades at the Darwin Colombia farm are centered on sustaining and extending the **quality, reliability and consistency** you expect from Darwin Perennials. We've added 2.5 acres of new greenhouses and planted them with 350,000 additional stock plants to meet the growing demand for perennials. With our new innovations, Darwin Perennials continues to be a one-stop-shop for all your perennial needs.

Some of the new advancements at the Darwin Colombia farm include the addition of our new elite housing block, which stores **pathogen-free materials for all our greenhouses** – keeping our crops healthy. Plus, our new cold rooms receive cuttings in less than 15 minutes after harvest for the freshest cuttings possible. Our employees are also enjoying a newly built lunchroom! You'll sense their pride in every box they pack for you.

This year, we are excited to launch unique genetic varieties like compact **NEW Echinacea Sombrero Poco™ Yellow** – only 14 to 16 in. (36 to 41 cm) in height, but with the same reliable Winter hardiness and proven performance of the Sombrero® Series! We've also focused on breeding varieties with outstanding landscape performance for our nursery growers. If you're looking for instant impact in the landscape, look no further than our **NEW Nepeta Whispurr™ Series**. It features brilliant, blue and pink, 8 to 10-in. (20 to 25-cm) blooms that create a striking display in outdoor spaces.

For easy ordering, product information and 24/7 online access to live inventory, turn to the **Star Roses and Plants Star Track™** business management service. Contact your Star Roses and Plants Territory Managers today for assistance with variety and program selection. You can be confident you'll have your order on time – every time – for a flourishing program in 2021!

Sincerely,

Leland Toering

Sales and Marketing Manager

DARWIN FARM – COLOMBIA

Darwin Colombia continues to provide a reliable supply of outstanding genetics from our unrooted cutting production farm outside of Bogotá. We are focused on investing in the long-term growth of our infrastructure and facilities to support our customers well into the future. This allows us to consistently supply a robust, clean stock program for healthy cuttings and AutoStix® inputs.

Darwin Colombia is committed to facilitating your success. With these ongoing investments, we are poised to provide the highest-quality genetics, in full and on time.

Here are some of our newest features at the farm:

New Cold Room

Our new cold room can handle and sustain exact temperature-controlled maintenance of cuttings (including AutoStix) post-harvest, during packing and prior to shipment – for the best possible conditions and the highest-quality cuttings.

Cold chain accurate packing ensures cuttings are transported to the cold room to start cooling within 15 minutes or less of harvest, with each bag individually scanned and allocated to a designated space where it will be carefully monitored until shipment.

New People

We are investing in our people, too. With the addition of our new Operations Manager as well as new Growers, Sprayers and Harvesters, we are able to continue improving our production.

New Construction

The addition of our new elite stock block allows us to house the elite materials used to fill our production greenhouses with clean/pathogen-free product.

An additional 2.5 acres of newly constructed, state-of-the-art production greenhouses are now available and equipped with ideal conditions for growing perennials.

Plants with a Purpose

Herb-A-Licious is an herb combo program with **patio to plate performance**. Each combo is crafted with outstanding ornamental and culinary potential – for an exciting array of uses for the home gardener. The program is available as unrooted cuttings from Darwin Colombia or as rooted liners from young plant distributors. To learn more about this herb program, visit darwinperennials.com.

BACK PATIO SIPS™

Uses: Herbal teas, DIY cocktails/mocktails

Explore the flavors of these delectable herbs just begging to be minced, muddled or blended into your next seasonal refreshment.

- Sage Scarlet Pineapple (1)
- Basil 'Kasar' (1)
- Stevia Sweet Leaf (1)
- Mint Mojito (1)
- Thyme Lemon (2)

BAKIN' UP A STORM™

Uses: Baking ingredients, Host(ess) gifts

Fill your home with fragrant lavender scones, baskets of savory rosemary biscuits, decadent cakes topped with refreshing peppermint icing and stevia-sweetened iced tea.

- Lavandula 'SuperBlue' (2)
- Mint Peppermint (1)
- Rosemary 'Gorizia' (2)
- Stevia Sweet Leaf (1)

BLUE RIBBON BBQ™

Uses: Grill seasonings, Host(ess) gifts

Prepare to kick your BBQ skills up a notch with herbs so fresh they'll become your secret ingredient. Bring one home today and secure your blue ribbon victory.

- Rosemary 'Barbecue' (2)
- Oregano Italian (1)
- Thyme 'Coccineus' (1)
- Sage 'Berggarten' (1)
- Tarragon French (1)

BUZZ OFF!™

Uses: Mosquito repellent

Blooms abound in this colorful combo filled with fragrant foliage. Pretty enough to decorate your patio, while powerful enough to help deter those pesky insects.

- Monarda Balmy™ Rose (2)
- Basil 'Kasar' (1)
- Nepeta Junior Walker™ (1)
- Mint Pineapple Variegated (1)
- Thyme 'Coccineus' (2)

NEW TWIST™

Uses: Common herbs made novel

Add fresh inspiration to your dishes with basil flushed with indigo, sage adorned with golden edges, rosemary with leaves twice the size of other varieties and thyme bursting with spicy orange notes.

- Basil 'Kasar' (2)
- Sage Golden (1)
- Rosemary 'Gorizia' (2)
- Thyme 'Spicy Orange' (2)

SPICE ISLAND™

Uses: Herbs for Caribbean cooking

Spice up your life with this carefully curated combo that brings a taste of the tropics right to your doorstep. Island life never tasted so good.

- Sage Scarlet Pineapple (1)
- Rosemary 'Spice Island' (2)
- Basil 'Kasar' (1)
- Mint Orange (1)
- Oregano 'Hot and Spicy' (2)

NEW VINTAGE™ SERIES

DARWIN PERENNIALS

Height: 12 to 14 in. (30 to 36 cm)

Bloom Months: April to September

USDA Hardiness Zones: 4a to 9b

**Tidy plant habit with no gap
between foliage and flowers –
outstanding in containers.**

- Bold colors mature to attractive shades instead of fading to brown like other varieties.

- Great for late-Spring, one-gallon programs.

ACHILLEA ● (YARROW) *Achillea*

'CORONATION GOLD'

Height: 36 in. (91 cm)
Bloom Months: Mid-June to July
USDA Hardiness Zones: 3a to 9b

Large, deep yellow heads are excellent for drying.

'MOONSHINE'

Height: 18 to 24 in. (46 to 61 cm)
Bloom Months: June to September
USDA Hardiness Zones: 4a to 8b

Bright yellow flowers over silvery foliage; wide heads come in early Summer and are slow to fade. If cut back, more leaves – and sometimes flowers – appear later.

ACHILLEA ● (YARROW) *Achillea millefolium*

LITTLE MOONSHINE

MUST HAVE PERENNIALS®
Height: 9 to 12 in. (23 to 30 cm)
Bloom Months: June to September
USDA Hardiness Zones: 4a to 8b
'ACBZ0002' PP28,179

Similar to 'Moonshine' but more compact, with bright golden-yellow flower clusters, gray-green foliage and very early blooming.

'PAPRIKA'

Height: 24 to 30 in. (61 to 76 cm)
Bloom Months: June to September
USDA Hardiness Zones: 3a to 9b

Low, spreading plants have red blooms with yellow centers; gray-green, fernlike foliage.

SEDUCTION SERIES

MUST HAVE PERENNIALS®
Height: 23 to 27 in. (58 to 69 cm)
Bloom Months: Mid-June to July
USDA Hardiness Zones: 4a to 8b

Excellent flowering uniformity with remarkably dense columnar habit.

'Saucy Seduction' PP20,782
'Strawberry Seduction' PP18,401
'Sunny Seduction' PP20,808

Agastache aurantiaca

'MANGO TANGO'

WALTERS GARDENS

Height: 16 to 18 in. (41 to 46 cm)

Bloom Months: Late Summer

USDA Hardiness Zones: 6a to 9b

PP28,747

Selected for its compact habit and vibrant flower color. Overall, the plant has a rich, mango-orange color. Individual flowers have dusky rose calyxes and light peach to dusky orange flowers. A deeper shade of orange than 'Peachie Keen'. Flowers cover the top three-quarters of the plant.

AGASTACHE ●
(ANISE HYSSOP)
Agastache rupestris

'PEACHIE KEEN'

WALTERS GARDENS

Height: 20 to 24 in. (51 to 61 cm)

Bloom Months: Late Summer

USDA Hardiness Zones: 6a to 9b

PP25,886

Densely compact, rounded clump of aromatic, bright green foliage is topped with loads of apricot-peach flowers with complementary purplish-pink calyxes. Flowers for many months beginning in mid-Summer (earlier in warmer zones). Easy to grow.

'ROSIE POSIE'

WALTERS GARDENS

Height: 18 to 22 in. (46 to 56 cm)

Bloom Months: Late Summer

USDA Hardiness Zones: 6a to 9b

PP25,857

TOP SELLER Densely compact, rounded clump of aromatic, bright green foliage is topped with loads of hot pink flowers with magenta-purple calyxes. Flowers for many months beginning in mid-Summer (earlier in warmer zones). Easy to grow.

LITTLE ADDER

Agastache 'Little Adder'

AGASTACHE 
(ANISE HYSSOP)
Agastache rugosa

'LITTLE ADDER'

DARWIN PERENNIALS

Height: 15 to 18 in. (38 to 46 cm)

Bloom Months: April to September

USDA Hardiness Zones: 5a to 9b

PP26,514

Three times the blooms of 'Black Adder' for three times the flower power.

- This mint family member is an outstanding source of nectar for bees and butterflies.
- Half the height of 'Black Adder' or 'Blue Fortune,' with better branching.
- Great show at retail and in the garden for better sell-through and repeat sales.

AJUGA ●●
(BUGLEWEED)
Ajuga pyramidalis

'METALLICA CRISPA'

Height: 6 in. (15 cm)
Bloom Months: May to June
USDA Hardiness Zones: 3a to 9b

Blue flowers on cushions of curled, purple-bronze leaves with a metallic sheen.

AJUGA ●●
(BUGLEWEED)
Ajuga reptans

'BLACK SCALLOP'

PLANTHAVEN INTERNATIONAL, INC.

Height: 6 in. (15 cm)
Bloom Months: May to June
USDA Hardiness Zones: 4a to 8b
PP15,815

Compact habit shows off shiny, nearly black leaves with neat, scalloped edges and violet-blue flowers.

Ajuga Chocolate Chip

'BRONZE BEAUTY'

Height: 8 in. (20 cm)
Bloom Months: May to June
USDA Hardiness Zones: 3a to 9b

Deep bronze foliage topped by blue flower spikes.

'BURGUNDY GLOW'

Height: 3 to 6 in. (8 to 15 cm)
Bloom Months: May to June
USDA Hardiness Zones: 3a to 9b

Blue flowers on pink and silver variegated leaves splashed with purple.

'CATLIN'S GIANT'

Height: 8 to 10 in. (20 to 25 cm)
Bloom Months: May to June
USDA Hardiness Zones: 3a to 9b

Robust grower with bold leaves and large, dark purple flowers.

'MAHOGANY'

Height: 4 to 6 in. (10 to 15 cm)
Bloom Months: May to June
USDA Hardiness Zones: 3a to 9b

Dark burgundy to black foliage with bright blue flowers.

'SILVER QUEEN'

Height: 6 in. (15 cm)
Bloom Months: May to June
USDA Hardiness Zones: 3a to 9b

Blue flower spikes over white and green variegated leaves.

AJUGA ●●
(BUGLEWEED)
Ajuga x tenorii

'CHOCOLATE CHIP'

Height: 4 in. (10 cm)
Bloom Months: May to June
USDA Hardiness Zones: 3a to 9b

'Valfredda'

Dwarf form with narrow, chocolate-colored leaves and blue flowers.

GOLDEN SPRING

Alyssum 'Golden Spring'

ALYSSUM ●

Alyssum wulfenianum

'GOLDEN SPRING'

DARWIN PERENNIALS

Height: 6 to 8 in. (15 to 20 cm)

Bloom Months: April to May

USDA Hardiness Zones: 4a to 9b

CPBR5491; PP25,710

Exciting season extender brings a fresh class of "WOW" to the early-Spring flowering group.

- The first vegetative Alyssum of this species, with the largest flowers of its class.
- Easy-to-grow, heat-loving, pest-free, hardy perennial.
- Evergreen foliage.

Aster 'Grape Crush'

Aster 'Pink Crush'

Amsonia 'Blue Ice'

AMSONIA (BLUE STAR)

Amsonia x hybrida

'BLUE ICE'

Height: 16 in. (41 cm)
Bloom Months: May to June
USDA Hardiness Zones: 4a to 9b

Starry, blue blooms against narrow, bright green leaves that turn yellow in Fall.

ARTEMISIA (WORMWOOD)

Artemisia arborescens

'POWIS CASTLE'

Height: 24 to 30 in. (61 to 76 cm)
Bloom Months: July
USDA Hardiness Zones: 5a to 9b

Features fine-textured, lacy silver foliage spikes that grow mounded and upright.

Artemisia 'Powis Castle'

ARTEMISIA (WORMWOOD)

Artemisia schmidtiana

'SILVER MOUND'

Height: 6 to 12 in. (15 to 30 cm)
Bloom Months: July
USDA Hardiness Zones: 3a to 8b

Compact, mounded plants have soft, silvery-gray foliage and small, yellow blooms.

ARTEMISIA (WORMWOOD)

Artemisia stelleriana

'SILVER BROCADE'

Height: 8 to 10 in. (20 to 25 cm)
Bloom Months: July
USDA Hardiness Zones: 3a to 8b

Silvery foliage resembles Dusty Miller; outstanding for rock gardens and edging.

Artemisia French Tarragon

Artemisia 'Silver Mound'

ARTEMISIA (WORMWOOD)

Artemisia dracunculoides sativa

FRENCH TARRAGON

Height: 16 to 24 in. (41 to 61 cm)
Bloom Months: Non-flowering
USDA Hardiness Zones: 4a to 9b

TOP SELLER This true French Tarragon brings a distinct anise scent to perennial and herb gardens.

ASTER (NEW ENGLAND ASTER)

Aster novae-angliae

'GRAPE CRUSH'

NEW FOR 2021
WALTERS GARDENS

Height: 26 to 30 in. (66 to 76 cm)
Bloom Months: August to November
USDA Hardiness Zones: 3a to 8b
 PPAF

Bringing refinement to Fall-blooming Asters, 'Grape Crush' produces a large, very round mound of densely packed flowers.

Aster 'Purple Dome'

Aster 'Moench'

'PINK CRUSH'

NEW FOR 2021
WALTERS GARDENS

Height: 20 to 24 in. (51 to 61 cm)
Bloom Months: August to November
USDA Hardiness Zones: 3a to 8b
 PPAF

'Pink Crush' produces a large, very round mound of densely packed flowers, bringing a refined look to Fall-blooming Asters.

'PURPLE DOME'

Height: 20 in. (51 cm)
Bloom Months: August to October
USDA Hardiness Zones: 4a to 9b

Solid masses of purple flowers with yellow centers.

ASTER

Aster x frikartii

'MOENCH'

Height: 24 in. (61 cm)
Bloom Months: Late Summer to Fall
USDA Hardiness Zones: 4a to 8b

Deep blue flowers measure 2.5 in. (6 cm).

Campanula glomerata

'ANGEL BELLS'

WALTERS GARDENS

Height: 14 to 18 in. (36 to 46 cm)
Bloom Months: July to September
USDA Hardiness Zones: 5a to 8b
 PP31,465

Upright perennial features creamy-white flowers atop medium green foliage. Perfect for containers, the front of borders or cut flowers. Attractive to bees and hummingbirds, yet not appealing to deer.

'CHURCH BELLS'

WALTERS GARDENS

Height: 14 to 18 in. (36 to 46 cm)
Bloom Months: July to September
USDA Hardiness Zones: 5a to 8b
 PPAF

This lavender-blue Campanula features an upright habit. Attracts pollinators; makes a great cut flower.

CAMPANULA (BELLFLOWER)

Campanula portenschlagiana

'BIRCH HYBRID'

Height: 4 to 6 in. (10 to 15 cm)
Bloom Months: June to August
USDA Hardiness Zones: 4a to 7b

A dwarf form with pale blue flowers.

PORT PLUS

NEW FOR 2021

Height: 4 to 6 in. (10 to 15 cm)
Bloom Months: June to August
USDA Hardiness Zones: 4a to 7b

The main characteristic of this cultivar is its compact habit compared to other selections. It remains compact and the spread fits well in containers.

CAMPANULA (BELLFLOWER)

Campanula poscharskyana

BLUE WATERFALL

MUST HAVE PERENNIALS®

Height: 8 in. (20 cm)
Bloom Months: May to July
USDA Hardiness Zones: 4a to 9b
 'Camgood' PP13,161

Low-growing, vigorous, spreading habit with some repeat blooming in Fall; excellent in containers and baskets.

CENTAUREA (CORNFLOWER)

Centaurea montana

'AMETHYST DREAM'

MUST HAVE PERENNIALS®

Height: 20 in. (51 cm)
Bloom Months: June to July
USDA Hardiness Zones: 3a to 9b
 PP20,781

Unique "shingled" buds grow into showy, radiant, royal-purple blooms accented by softly-haired, silver foliage.

'AMETHYST IN SNOW'

MUST HAVE PERENNIALS®

Height: 14 in. (36 cm)
Bloom Months: June to July
USDA Hardiness Zones: 3a to 9b
 PP18,284

Lovely bicolor blooms in a striking new flower form with dense masses of silvery-green foliage.

CARYOPTERIS (BLUEBEARD)

Caryopteris clandonensis

'DARK KNIGHT'

Height: 24 to 36 in. (61 to 91 cm)
Bloom Months: July to September
USDA Hardiness Zones: 6a to 9b

Purple flowers complement dark green foliage.

DARWIN PERENNIALS

Caryopteris 'Gold Crest'

CARYOPTERIS (BLUEBEARD) 
Caryopteris x clandonensis

'GOLD CREST'

SUNNY DAY

DARWIN PERENNIALS

Height: 18 to 24 in. (46 to 61 cm)
Bloom Months: June to September
USDA Hardiness Zones: 4a to 9b
'Balcorsunay' PP17,405

Excellent choice to brighten borders and containers.

- Lots of big, bright, single yellow blooms on compact plants.
- Remove spent flowers to encourage reblooming.
- North American native species.

COREOPSIS (TICKSEED) ●
Coreopsis verticillata

'CRÈME BRULEE'

MUST HAVE PERENNIALS®

Height: 20 in. (51 cm)
Bloom Months: June to July
USDA Hardiness Zones: 4a to 9b
PP16,096

Larger, deeper yellow flowers and greater vigor than 'Moonbeam', with brighter foliage and better powdery mildew resistance.

CRÈME CARAMEL

DARWIN PERENNIALS

Height: 18 in. (46 cm)
Bloom Months: May to July
USDA Hardiness Zones: 5a to 9b
'Novcorcar' PP22,565

Equally at home in mass plantings or containers.

- Terracotta-colored blooms and narrow, bright green foliage.
- Mixes well with other perennials and roses.
- Compact and dense habit.

'MOONBEAM'

Height: 15 to 18 in. (38 to 46 cm)
Bloom Months: June to July
USDA Hardiness Zones: 3a to 9b

Small, lemon-yellow flowers on bushy plants with dark green foliage.

'SYLVESTER'

DARWIN PERENNIALS

Height: 16 to 20 in. (41 to 51 cm)
Bloom Months: June to September
USDA Hardiness Zones: 4a to 9b
PP24,767

Stays in place in the landscape.

- Fuller plants can be finished from first-year cuttings.
- Bright, golden-yellow blooms are twice the size of other *C. verticillata*.
- Perfect for gallon programs.

'ZAGREB'

Height: 16 to 24 in. (41 to 61 cm)
Bloom Months: June to July
USDA Hardiness Zones: 3a to 9b

Upright, bushy plants bear deep golden-yellow flowers.

Bloom Months: April to May
USDA Hardiness Zones: 4a to 9b

Low-maintenance garden performer features orchid-pink flowers that rebloom in Fall; good resistance to leaf spots.

'PINK PEWTER'

Height: 4 to 8 in. (10 to 20 cm)
Bloom Months: April to May
USDA Hardiness Zones: 3a to 9b

Beautifully variegated leaves and long-blooming, soft pink flowers.

'PURPLE DRAGON'

HORTECH, INC.

Height: 4 to 8 in. (10 to 20 cm)
Bloom Months: April to May
USDA Hardiness Zones: 3a to 9b
PP15,890

Snapdragon-like flowers with rich purple spikes that contrast with bright silvery foliage; robust habit.

'RED NANCY'

Height: 8 to 12 in. (20 to 30 cm)
Bloom Months: April to May
USDA Hardiness Zones: 3a to 8b

Beautifully variegated leaves and long-blooming flowers brighten shaded gardens and Summer containers. Superb groundcover beneath trees or shrubs, especially when combined with Spring-flowering bulbs. Attractive at garden's edge or along walkways.

'SHELL PINK'

Height: 8 in. (20 cm)
Bloom Months: April to May
USDA Hardiness Zones: 4a to 8b

Soft pink flowers – excellent for shaded borders or containers.

'WHITE NANCY'

Height: 6 in. (15 cm)
Bloom Months: April to May
USDA Hardiness Zones: 3a to 9b

Fast-growing groundcover with silver and green variegated foliage and pure white flowers.

CONCEPT PLANTS, B.V.

Height: 22 to 24 in. (56 to 61 cm)

Bloom Months: May to August

USDA Hardiness Zones: 5a to 8b

'Armtipp01' PP24,827

Early-blooming variety has silver-gray foliage and mid-blue flowers.

'BLUE CUSHION'

MUST HAVE PERENNIALS®

Height: 16 in. (41 cm)

Bloom Months: June to August

USDA Hardiness Zones: 5a to 8b

Spectacular dwarf habit and free-flowering performance with deep blue flowers and gray-green, evergreen foliage.

'HIDCOTE'

Height: 20 to 22 in. (51 to 56 cm)

Bloom Months: June to August

USDA Hardiness Zones: 5a to 8b

More compact than others in the species, with deep blue flowers.

'MUNSTEAD'

Height: 14 to 18 in. (36 to 46 cm)

Bloom Months: June to August

USDA Hardiness Zones: 5a to 8b

Compact and upright, with narrow foliage and lavender-blue flower spikes.

PLATINUM BLONDE™

MOMPARLER ALBORS

Height: 16 to 24 in. (41 to 61 cm)

Bloom Months: June to August

USDA Hardiness Zones: 6a to 9b

'Momparler' PP23,834

Vigorous grower has green and yellow stable variegation and striking purple blooms.

PLATINUM BLONDE is a U.S. trademark of Momparler Albors.

'THUMBELINA LEIGH'

KIWI FLORA LIMITED

Height: 9 to 11 in. (23 to 28 cm)

Bloom Months: June to August

USDA Hardiness Zones: 5a to 8b

CPBR2632; PP15,231

Compact habit with sturdy stems of fragrant foliage and purple flowers.

'VERA'

Height: 24 to 30 in. (61 to 76 cm)

Bloom Months: June to August

USDA Hardiness Zones: 5a to 8b

Long, broad, silver-green leaves and lavender flowers in Summer.

LAVANDULA (FRENCH LAVENDER)

Lavandula dentata

Height: 28 in. (71 cm)

Bloom Months: June to August

USDA Hardiness Zones: 8a to 9b

French Lavender is a tender perennial that prefers a sunny location with well-drained soils. Also makes an excellent fragrant patio container in colder climates.

LAVANDULA (LAVENDER)

Lavandula intermedia

'GROSSO'

Height: 18 to 22 in. (46 to 56 cm)

Bloom Months: Summer

USDA Hardiness Zones: 5a to 7b

Fragrant and wonderful addition to scent gardens.

'PROVENCE'

Height: 30 in. (76 cm)

Bloom Months: June to August

USDA Hardiness Zones: 5a to 8b

Fragrant, light purple florets atop gray-green, evergreen leaves.

LAVANDULA (FERNLEAF LAVENDER)

Lavandula pinnata

Height: 24 in. (61 cm)

Bloom Months: June to August

USDA Hardiness Zones: 9a to 11

Tender perennial has a shrub-like habit with gray-green leaves and large, blue-purple flower spikes.

LAVANDULA (LAVENDER)

Lavandula x gingsii

'GOODWIN CREEK GREY'

Height: 12 to 36 in. (30 to 91 cm)

Bloom Months: June to August

USDA Hardiness Zones: 7a to 10b

Tender perennial has small, intense purple flowers on long wands.

Ocimum basilicum

'KASAR'

Height: 28 to 32 in. (71 to 81 cm)
USDA Hardiness Zones: 9a to 11

Tender perennial has purple shading from leaf base to green tip; tasty and beautiful!

OENOTHERA (EVENING PRIMROSE)

Oenothera berlandieri

'SISKIYOU'

Height: 6 to 8 in. (15 to 20 cm)
Bloom Months: June to August
USDA Hardiness Zones: 4a to 8b

Neat, compact and floriferous with pink flowers.

OENOTHERA (EVENING PRIMROSE)

Oenothera macrocarpa ssp. fremontii

'SHIMMER'

Height: 10 to 12 in. (25 to 30 cm)
Bloom Months: June to August
USDA Hardiness Zones: 5a to 8b

PP19,663

Papery, lemon-yellow flowers and narrow, silvery foliage.

ORIGANUM (OREGANO)

Origanum laevigatum

GENTLE BREEZE

RENE VAN GAALEN, B.V.

Height: 16 to 18 in. (41 to 46 cm)
Bloom Months: Spring to late Summer

USDA Hardiness Zones: 5a to 9b
'ALL120506' PP29,589

A wonderful addition to the perennial garden. Although not primarily for culinary use, this ornamental Oregano has beautifully fragrant foliage and sweetly scented flowers from late-Spring through Fall. Very attractive to pollinators.

ORIGANUM (COMPACT SWEET MARJORAM)

Origanum majorana

'COMPACTUM'

Height: 3 to 6 in. (8 to 15 cm)
USDA Hardiness Zones: 6b to 9b

Marjoram with small, round leaves and neat, compact habit.

ORIGANUM (ORNAMENTAL OREGANO)

Origanum rotundifolium

'KENT BEAUTY'

Height: 4 in. (10 cm)
Bloom Months: Late Summer to Fall
USDA Hardiness Zones: 5a to 8b

Clusters of hop-like, pendant bracts; color segues from green to mauve-pink.

ORIGANUM (OREGANO)

Origanum vulgare

'AUREUM'

Height: 12 in. (30 cm)
USDA Hardiness Zones: 5a to 9b

Golden Oregano with light lavender-purple flowers and chartreuse, spreading foliage.

GREEK

Height: 12 to 28 in. (30 to 71 cm)
USDA Hardiness Zones: 4a to 9b

TOP SELLER Strong-growing, hardy strain.

'HOT AND SPICY'

Height: 24 to 30 in. (61 to 76 cm)
USDA Hardiness Zones: 5a to 9b

Highly aromatic scent and spicy flavor. White flowers in Summer.

VARIEGATED

Height: 16 in. (41 cm)
USDA Hardiness Zones: 4a to 9b

Green with creamy variegated edge.

ORIGANUM (OREGANO)

Origanum x majoricum

ITALIAN

Height: 18 to 24 in. (46 to 61 cm)
USDA Hardiness Zones: 5a to 9b

Deliciously scented culinary herb.

PIKE'S PEAK PURPLE®

PLANT SELECT

Height: 30 in. (76 cm)
Bloom Months: June to July
USDA Hardiness Zones: 4a to 9b
 'P007S'

Grape jelly-colored flowers with striped throats on a bushy clump of narrow, green leaves.

PIKE'S PEAK PURPLE is a U.S. registered trademark of Plant Select.

RED ROCKS®

PLANT SELECT

Height: 30 in. (76 cm)
Bloom Months: June to July
USDA Hardiness Zones: 4a to 9b
 'P008S'

Bright rose flowers with magenta-veined white throats on an attractive mound of narrow, dark green leaves.

RED ROCKS is a U.S. registered trademark of Plant Select.

PEROVSKIA (RUSSIAN SAGE)

Perovskia atriplicifolia

Height: 36 to 60 in. (91 to 152 cm)
Bloom Months: July to September
USDA Hardiness Zones: 4a to 9b

Spikes of light blue flowers over aromatic, gray-green foliage. Standard variety Perovskia.

PEROVSKIA (RUSSIAN SAGE)

Perovskia atriplicifolia

LACEY BLUE

CONCEPT PLANTS, B.V.

Height: 12 to 18 in. (30 to 46 cm)
Bloom Months: July to September
USDA Hardiness Zones: 4a to 9b

'Lisslitt' PP20,845

Features the largest flowers of any Russian Sage – larger flowers for more color! Truly dwarf variety stays small in subsequent years, and dense branching prevents flopping.

LITTLE LACE DARWIN PERENNIALS

Height: 18 to 24 in. (46 to 61 cm)
Bloom Months: July to September
USDA Hardiness Zones: 4a to 9b
 'Novaperlac' PP26,618

Long-lasting purple flower spikes create a lot of flower power.

- Unique growth habit combines a shorter plant with great uniformity.
- A good choice for xeric areas.

'ROCKETMAN'

WALTERS GARDENS

Height: 30 to 36 in. (76 to 91 cm)
Bloom Months: Late Summer
USDA Hardiness Zones: 4a to 9b
 PP27,526

A narrower, upright, vase-shaped habit and relatively short stature set this Perovskia apart. Its aromatic, gray-green, non-dissected leaves line the silvery stems, which are topped with large, fluffy-textured, lavender-blue flowers.

Perovskia atriplicifolia

Perovskia Lacey Blue

Penstemon Red Rocks

Penstemon Pike's Peak Purple

SUNSPARKLER is a U.S. registered trademark of Christopher M. Hansen.

SEDUM 
(STONECROP)
Sedum kamtschaticum

Height: 6 to 8 in. (15 to 20 cm)
Bloom Months: Summer
USDA Hardiness Zones: 4a to 9b

Scalloped, deep green leaves are covered with mounds of yellow-gold flowers.

SEDUM 
(STONECROP)
Sedum kamtschaticum
variegatum

'VARIEGATUM'

Height: 4 to 6 in. (10 to 15 cm)
Bloom Months: June to August
USDA Hardiness Zones: 4a to 9b

Compact plants have variegated foliage with creamy margins and star-shaped, yellow blooms that mature to red.

'WEIHENSTEPHANER GOLD'

Height: 4 to 6 in. (10 to 15 cm)
Bloom Months: Summer
USDA Hardiness Zones: 3a to 8b

Golden-yellow flowers and red seed heads on prostrate, scalloped, green foliage.

SEDUM 
(STONECROP)
Sedum makinoi

'OGON'

Height: 4 in. (10 cm)
Bloom Months: Summer
USDA Hardiness Zones: 7a to 9b

Ground-hugging, tender perennial has chartreuse foliage and dainty, yellow flowers.

SEDUM 
(STONECROP)
Sedum pachyclados

Height: 3 in. (8 cm)
Bloom Months: Summer
USDA Hardiness Zones: 5a to 9b

Deep blue, scalloped foliage forms a tight mound, with white, star-shaped flowers.

SEDUM 
(STONECROP)
Sedum reflexum

'BLUE SPRUCE'

Height: 3 to 6 in. (8 to 15 cm)
Bloom Months: July to August
USDA Hardiness Zones: 4a to 9b

Low-growing, spreading plants have blue, needle-like foliage and yellow flowers.

DARWIN PERENNIALS

PRIMA ANGELINA

Sedum Prima Angelina

SEDUM ●
(STONECROP)
Sedum rupestre

PRIMA ANGELINA

DARWIN PERENNIALS

Height: 3 to 6 in. (8 to 15 cm)

Bloom Months: Does not flower

USDA Hardiness Zones: 4a to 9b

'Gold Form' CPBRAFF; PPAF

A sport of Angelina, this variety offers bright color that holds throughout the season.

- Sedum Prima Angelina has a denser, more compact habit and more vivid golden color than Angelina.
- Low-growing and fast-spreading, with fleshy, needle-like foliage.
- Ideal for 1 to 2.5-qt. pot sizes.

SEDUM ●
(STONECROP)
Sedum rupestre

'ANGELINA'

Height: 3 to 6 in. (8 to 15 cm)
Bloom Months: July to August
USDA Hardiness Zones: 3a to 9b

Low growing and fast spreading, with fleshy, needle-like, golden-yellow foliage.

SEDUM ●
(STONECROP)
Sedum sexangulare

Height: 4 in. (10 cm)
Bloom Months: Summer
USDA Hardiness Zones: 5a to 5b

Dense carpets of fine green foliage with bright yellow flowers in Spring.

SEDUM ●
(STONECROP)
Sedum sieboldii

Height: 6 in. (15 cm)
Bloom Months: September to October
USDA Hardiness Zones: 6a to 9b

Semi-evergreen, blue-green, succulent foliage with pink flowers in Fall.

SEDUM ●
(STONECROP)
Sedum spectabile

'AUTUMN FIRE'

Height: 24 to 30 in. (61 to 76 cm)
Bloom Months: Late Summer to Fall
USDA Hardiness Zones: 3a to 9b

Dense, robust habit; flowers start blue-green and mature to pink, deep red and finally bronze.

'AUTUMN JOY'

Height: 18 to 24 in. (46 to 61 cm)
Bloom Months: Late Summer to Fall
USDA Hardiness Zones: 3a to 10b

Blue-green flower heads turn rosy-pink and intensify to deep ruby-red, then bronze.

'POWDERPUFF'

NEW FOR 2021
WALTERS GARDENS
Height: 8 to 10 in. (20 to 25 cm)
Bloom Months: August to October
USDA Hardiness Zones: 3a to 9b
PPAF

Billowy, puffy dome of bright rosy-pink flowers in late Summer to early Fall.

'SPELLBOUND'

NEW FOR 2021
WALTERS GARDENS
Height: 18 to 20 in. (46 to 51 cm)
Bloom Months: August to October
USDA Hardiness Zones: 3a to 9b
PPAF

Soft pink buds open to cream flowers that bubble over a domed habit of gray-green leaves.

SEDUM ●
(STONECROP)
Sedum spurium

'DRAGONS BLOOD'

Height: 4 to 6 in. (10 to 15 cm)
Bloom Months: July to August
USDA Hardiness Zones: 3a to 9b

Green leaves with red margins and deep red blooms in Summer. Foliage turns bright red in Fall.

'FULDAGLUT'

Height: 3 to 4 in. (8 to 10 cm)
Bloom Months: Spring to Summer
USDA Hardiness Zones: 4a to 9b

Dark green, spreading foliage with red flowers in July. Foliage turns red-orange in Fall.

'JOHN CREECH'

Height: 2 in. (5 cm)
Bloom Months: June
USDA Hardiness Zones: 3a to 9b

Dense groundcover; striking green foliage and pink-purple blooms.

'TRICOLOR'

Height: 3 to 4 in. (8 to 10 cm)
Bloom Months: June to August
USDA Hardiness Zones: 3a to 9b

Mat-forming, with small, rounded, green leaves tinged in pink and edged in white; pink blooms.

SEDUM (STONECROP)

Sedum tetractinum

'CORAL REEF'

Height: 3 to 4 in. (8 to 10 cm)
Bloom Months: July to August
USDA Hardiness Zones: 4a to 9b

Mounded, spreading groundcover has small, yellow flowers and smooth, green foliage that turns red in Fall.

SEDUM (STONECROP)

Sedum x hybrida

'LEMON BALL'

Height: 6 in. (15 cm)
Bloom Months: June to July
USDA Hardiness Zones: 7a to 9b

Vivid mounds of chartreuse foliage stay dense, bushy and bright all Summer long.

'VERA JAMESON'

Height: 10 to 16 in. (25 to 41 cm)
Bloom Months: August to September
USDA Hardiness Zones: 3a to 9b

Large clusters of pink flowers and waxy, gray-green leaves turn burgundy as Summer progresses.

SEMPERVIVUM (HENS & CHICKS)

Sempervivum

'CARMEN'

Height: 2 to 8 in. (5 to 20 cm)
Bloom Months: June to September
USDA Hardiness Zones: 3a to 8b

Emerald green, succulent leaves with bright red tips.

'COMMANDER HAY'

Height: 1 to 3 in. (3 to 8 cm)
Bloom Months: June to September
USDA Hardiness Zones: 3a to 8b

Clumps of red and green rosettes.

'KALINDA'

Height: 2 to 8 in. (5 to 20 cm)
Bloom Months: June to September
USDA Hardiness Zones: 5a to 9b

Large, succulent leaves held in tight, green heads with blood-red tips.

'RED BEAUTY'

Height: 4 in. (10 cm)
Bloom Months: June to September
USDA Hardiness Zones: 3a to 8b

Dense rosettes are red in Summer and turn burgundy in cold weather. Color may vary from season to season. Produces clusters of light pink flowers in mid-Summer.

'ROYAL RUBY'

Height: 3 to 4 in. (8 to 10 cm)
Bloom Months: June to September
USDA Hardiness Zones: 3a to 8b

Forms dense mats of dark wine-red foliage.

'RUBY HEART'

Height: 2 to 8 in. (5 to 20 cm)
Bloom Months: June to September
USDA Hardiness Zones: 3a to 8b

Rosettes start red, turning green with red margins as they grow.

'SILVERINE'

Height: 3 to 4 in. (8 to 10 cm)
Bloom Months: June to September
USDA Hardiness Zones: 3a to 8b

Muted green foliage with red overtones.

SEMPERVIVUM (HENS & CHICKS)

Sempervivum arachnoideum

'COBWEB'

Height: 2 to 8 in. (5 to 20 cm)
Bloom Months: June to September
USDA Hardiness Zones: 5a to 8b

Pale green rosettes covered with fine, silver hairs; produces bright reddish-pink flowers.

SEMPERVIVUM (HENS & CHICKS)

Sempervivum tectorum

'SUNSET'

Height: 2 to 8 in. (5 to 20 cm)
Bloom Months: June to September
USDA Hardiness Zones: 3a to 8b

Emerald green leaves with red tips take on orange-red cast in cool weather.

Silene dioica

'CLIFFORD MOOR'

Height: 18 in. (46 cm)
Bloom Months: May to July
USDA Hardiness Zones: 5a to 8b

Variegated leaves and single pink flowers.

SOLIDAGO ●●●
(GOLDENROD)
Solidago

LITTLE LEMON

PLANTHAVEN INTERNATIONAL, INC.
Height: 12 to 18 in. (30 to 46 cm)
Bloom Months: July to September
USDA Hardiness Zones: 4a to 9b
'Dansolittlem' PP17,297

Compact, well-branched plants covered with racemes of bright lemon-yellow flowers in Summer.

SOLIDAGO ●●●
(GOLDENROD)
Solidago rugosa

'FIREWORKS'

Height: 36 to 48 in. (91 to 122 cm)
Bloom Months: July to September
USDA Hardiness Zones: 5a to 9b

Golden-yellow flowers with wild, multi-branched panicles.

STACHYS ●●●
(LAMB'S EAR)
Stachys byzantina

'HELENE VON STEIN'

Height: 12 in. (30 cm)
Bloom Months: July
USDA Hardiness Zones: 4a to 9b

Clump-forming habit with big, broad leaves and velvety-soft, greenish-silver foliage. Great for edging, border gardens and containers.

'SILVER CARPET'

Height: 8 in. (20 cm)
Bloom Months: June to July
USDA Hardiness Zones: 4a to 9b

Drought-tolerant, low-growing and spreading variety with soft and fuzzy, oval, gray-white leaves.

STACHYS ●●●
(LAMB'S EAR)
Stachys monnieri

'HUMMELO'

Height: 20 in. (51 cm)
Bloom Months: June to July
USDA Hardiness Zones: 4a to 8b

Compact clumps of textured, glossy green foliage with spikes of purple flowers.

STEVIA ●●●
(STEVIA)
Stevia rebaudiana

SWEET LEAF

Height: 18 to 30 in. (46 to 76 cm)
USDA Hardiness Zones: 9a to 11

Tender perennial used as a dietary supplement; dried leaves are many times sweeter than sugar.

TEUCRIUM ●●●
(GERMANDER)
Teucrium chamaedrys

Height: 12 in. (30 cm)
Bloom Months: June to July
USDA Hardiness Zones: 4a to 9b

Evergreen sub-shrub with deep green leaves and rosy-purple flowers.

THYMUS ●●●
(THYME)
Thymus praecox

'ALBIFLORUS'

Height: 2 in. (5 cm)
USDA Hardiness Zones: 4a to 9b

Low-growing habit with green leaves and white flowers.

'COCCINEUS' CREEPING THYME

Height: 2 to 4 in. (5 to 10 cm)
USDA Hardiness Zones: 5a to 9b

Low-growing perennial with small, elliptical, green leaves and fuchsia-red blooms in Summer.

HIGHLAND CREAM

Height: 2 to 4 in. (5 to 10 cm)
USDA Hardiness Zones: 3a to 8b
'Hartington Silver'

Also known as 'Hartington Silver'. Small, green leaves with creamy-white margins and tiny flowers of palest pink in late Spring.

USDA Hardiness Zones: 5a to 9b

Woolly creeper with gray foliage and white flowers; good for dry locations.

THYMUS (THYME)

Thymus serpyllum

'ELFIN'

Height: 1 in. (3 cm)
USDA Hardiness Zones: 4a to 9b

Tight, creeping groundcover with mats of tiny, dark green foliage and pink flowers in Summer.

'MAGIC CARPET'

Height: 2 in. (5 cm)
USDA Hardiness Zones: 4a to 9b

Tiny, pink flowers float over mats of green, slightly hairy foliage.

'PINK CHINTZ'

Height: 1 in. (3 cm)
USDA Hardiness Zones: 4a to 9b

Mat-forming creeper with tiny, green leaves and pink flowers.

THYMUS (THYME)

Thymus vulgaris

ENGLISH

Height: 6 to 8 in. (15 to 20 cm)
USDA Hardiness Zones: 4a to 9b

TOP SELLER Popular culinary variety has rounded leaves, purple-pink flowers and a semi-creeping habit.

FRENCH

Height: 6 to 8 in. (15 to 20 cm)
USDA Hardiness Zones: 4a to 9b

Purple to white flowers with narrow, fragrant, green leaves.

THYMUS (THYME)

Thymus x citriodorus

'DOONE VALLEY' CREEPING THYME

Height: 1 to 2 in. (3 to 5 cm)
Bloom Months: June to July
USDA Hardiness Zones: 5a to 5b

Also known as Creeping Lemon Thyme. Purple flowers with lemon-scented, green and golden variegated foliage. Excellent for planting between stepping stones and rock gardens.

GOLDEN LEMON

Height: 4 in. (10 cm)
USDA Hardiness Zones: 6a to 9b

Pungently lemon-scented leaves are golden and variegated when grown in bright light.

LEMON

Height: 8 in. (20 cm)
USDA Hardiness Zones: 5a to 9b

Lemon-scented, green leaves and lavender-pink flowers.

ORANGE

Height: 12 in. (30 cm)
USDA Hardiness Zones: 5a to 9b

Orange or citrus-scented, green leaves and lavender-pink flowers.

SILVER EDGED

Height: 4 in. (10 cm)
USDA Hardiness Zones: 4a to 9b

Narrow, green leaves with variable silver variegation, lavender-pink flowers and no lemon fragrance.

'SILVER KING'

Height: 4 to 5 in. (10 to 13 cm)
USDA Hardiness Zones: 7a to 9b

Lemon-scented, medium-green leaves are splashed with cream.

'SPICY ORANGE'

Height: 2 to 4 in. (5 to 10 cm)
USDA Hardiness Zones: 5a to 9b

Needle-like leaves with a spicy, orange scent; soft, lavender flowers in late Spring.

'VARIEGATUS'

Height: 4 in. (10 cm)
USDA Hardiness Zones: 5a to 9b

Lemon-scented, green leaves with a thin, white-splashed margin and purple flowers.

Veronica 'Lavender Lightsaber'

VERBENA (VERVAIN)

Verbena bonariensis

'LOLLIPOP'

Height: 24 in. (61 cm)
Bloom Months: May to frost
USDA Hardiness Zones: 7a to 11

Tender perennial has unique dwarf form with lavender-blue flowers.

VERBENA (VERVAIN)

Verbena canadensis

'HOMESTEAD PURPLE'

Height: 6 to 10 in. (15 to 25 cm)
Bloom Months: May to frost
USDA Hardiness Zones: 6a to 9b

Small, deep purple flowers on vigorous, mounded plants.

VERONICA (SPIKE SPEEDWELL)

Veronica

'LAVENDER LIGHTSABER'

WALTERS GARDENS
Height: 28 to 30 in. (71 to 76 cm)
Bloom Months: Summer
USDA Hardiness Zones: 4a to 9b
 PPAF

A tall, columnar-shaped habit holds soft-lavender flowers.

Veronica 'Mona Lisa Smile'

Verbena 'Lollipop'

Verbena 'Homestead Purple'

'MONA LISA SMILE'

WALTERS GARDENS
Height: 22 to 24 in. (56 to 61 cm)
Bloom Months: Summer
USDA Hardiness Zones: 4a to 9b
 PP30,477

Produces long, paintbrush-like spikes of rosy-purple flowers on a terrific, rounded habit.

VERONICA (SPEEDWELL)

Veronica longifolia

FIRST BRIDE

RENE VAN GAALEN, B.V.
Height: 16 to 22 in. (41 to 56 cm)
Bloom Months: April to August
USDA Hardiness Zones: 4a to 9b
 'Allvbride' PP29,854

Sturdy stems sport clean, white flowers on contrasting, dark green foliage. Frost-tolerant and disease-resistant Veronica can be used as a garden cut flower, while also flourishing in landscapes and gardens.

Veronica First Bride

Veronica First Lady

Veronica First Love

FIRST GLORY

RENE VAN GAALEN, B.V.
Height: 16 to 22 in. (41 to 56 cm)
Bloom Months: Late Spring to Summer
USDA Hardiness Zones: 4a to 8b
 'Alllord' PP23,294

Compact, highly uniform plants with short, thick spikes of deep blue flowers; vernalization not required.

FIRST KISS

RENE VAN GAALEN, B.V.
Height: 22 to 24 in. (56 to 61 cm)
Bloom Months: Late Spring to Summer
USDA Hardiness Zones: 4a to 9b
 'Allkiss' PP28,797

Pretty pink, long-flowering addition to the First collection; vernalization not required.

FIRST LADY

RENE VAN GAALEN, B.V.
Height: 16 to 22 in. (41 to 56 cm)
Bloom Months: Late Spring to Summer
USDA Hardiness Zones: 4a to 8b
 'Alllady' PP23,271

Sturdy, compact plant with white flower spikes; vernalization not required.

Veronica First Glory

Veronica First Match

Veronica First Kiss

Veronica First Memory

FIRST LOVE

RENE VAN GAALEN, B.V.
Height: 22 in. (56 cm)
Bloom Months: Late Spring to Summer
USDA Hardiness Zones: 4a to 9b
 'Alllove' PP21,478

Uniform, well-branched plants with short spikes of brilliant pink flowers; excellent flower canopy without vernalization.

FIRST MATCH

RENE VAN GAALEN, B.V.
Height: 22 to 24 in. (56 to 61 cm)
Bloom Months: Late Spring to Summer
USDA Hardiness Zones: 4a to 9b
 'Allvglove' PP28,798

Attractive dark pink, long-flowering addition to the First collection; vernalization not required.

FIRST MEMORY

RENE VAN GAALEN, B.V.
Height: 22 to 24 in. (56 to 61 cm)
Bloom Months: Late Spring to Summer
USDA Hardiness Zones: 4a to 9b
 'Allv1461' PP29,059

Nice, soft blue, long-flowering addition to the First collection; vernalization not required.

Veronica 'Blue Skywalker'

DARWIN PERENNIALS

Veronica Forever Blue

Veronica 'Perfectly Picasso'

Veronica 'Royal Rembrandt'

Veronica 'Very Van Gogh'

'BLUE SKYWALKER'

WALTERS GARDENS

Height: 28 to 30 in. (71 to 76 cm)
Bloom Months: Summer
USDA Hardiness Zones: 4a to 9b
 PP29,406

TOP SELLER This taller perennial provides height in the garden without too much horizontal space. Lavender-blue flower spikes cover the top half of an incredibly upright, dense habit of dark green leaves.

FOREVER BLUE

DARWIN PERENNIALS

Height: 16 to 18 in. (41 to 46 cm)
Bloom Months: June to October
USDA Hardiness Zones: 4b to 9a
 'Balverevlu' PP31,087

No seed set for longer blooming.

- Striking Veronica produces continuous, deep blue flowers throughout Summer to Fall.
- Excellent branching.
- Rich, deep blue color.
- Mildew resistant.
- Larger than Moody Blues.

Veronica Venice Blue

'PERFECTLY PICASSO'

WALTERS GARDENS

Height: 22 to 26 in. (56 to 66 cm)
Bloom Months: Summer
USDA Hardiness Zones: 4a to 9b
 PP29,720

Paintbrush-like spikes produce white buds that open to medium pink flowers, creating a bicolor look. Attractive flowers cover the top half of the plant, showing off its healthy, medium green leaves on a beautifully rounded habit.

'ROYAL REMBRANDT'

WALTERS GARDENS

Height: 18 to 20 in. (46 to 51 cm)
Bloom Months: Summer
USDA Hardiness Zones: 4a to 9b
 PP29,377

Discover your new Speedwell staple! Violet-purple flowers cover the top half of the plant, showcasing its dark green foliage. A remontant variety; sheering will encourage reblooming later in the season.

'VERY VAN GOGH'

WALTERS GARDENS

Height: 18 to 20 in. (46 to 51 cm)
Bloom Months: Summer
USDA Hardiness Zones: 4a to 8b
 PP27,428

A posh perennial with a unique color palette. Paintbrush-like, rosy-purple flowers appear on well-branched scapes. Many secondary spikes extend the bloom time. Bright green, upright clumping foliage.

VERONICA (SPEEDWELL)

Veronica austriaca

VENICE BLUE

FLORENSIS, B.V.

Height: 10 to 12 in. (25 to 30 cm)
Bloom Months: March to April
USDA Hardiness Zones: 4a to 9b
 'Florverblue' CPBR5323; PP27,555

Easy-to-grow Veronica makes an excellent season extender! It requires less vernalization than other *austriaca* types; features strong, upright stems for outstanding show at retail and in the garden. Plus, this early Spring-flowering variety loves the heat.

VIOLA (VIOLET)

Viola pubescens

'REBECCA CAWTHORNE'

Height: 6 to 8 in. (15 to 20 cm)

Bloom Months: Spring

USDA Hardiness Zones: 5a to 9b

Fragrant, purple flowers splashed with white; sporadic reblooming.

WALDSTEINIA (BARREN STRAWBERRY)

Waldsteinia ternata

Height: 4 to 6 in. (10 to 15 cm)

Bloom Months: May to June

USDA Hardiness Zones: 3a to 8b

Dense mats of semi-evergreen, strawberry-like foliage with yellow flowers.

Waldsteinia ternata

'ETAİN'

Height: 8 to 10 in. (20 to 25 cm)

Bloom Months: February to October

USDA Hardiness Zones: 5a to 10b

Compact variety flowers profusely in Spring and Fall with large, fragrant, bicolor blooms.

REGIONAL TOP PICKS

This chart highlights top varieties from Darwin Perennials that will grow best in each season and region.

FLOWERING SEASON	PACIFIC NORTHWEST	SOUTHEAST	SOUTHWEST

CULTURE GUIDE:
ALL YOU NEED
TO GROW
THE **FINEST**
PERENNIALS IN
THE INDUSTRY.

GROWER RESOURCES & FINISHING TRIALS

TOOLS FOR GROWING & SHIPPING BEST-QUALITY PERENNIALS

Darwin Perennials offers the most innovative solutions for your growing challenges through new and improved perennial genetics. We are able to provide the best products on the market thanks to our extensive trialing and culture research at our facility in West Grove, PA. The results from these culture trials are available for many of our varieties at darwinperennials.com/Culture/ProductionGuides – so you can take full advantage of all that our top-performing perennials have to offer.

TRIALING PROGRAM GOALS

- Learn how Darwin Perennials varieties perform with varying transplant dates.
- Develop production protocols that will help growers deliver quality finished perennials to retailers, wholesalers and landscapers.
- Learn how to use Darwin Perennials varieties to increase sales for Spring, Summer and Fall.

TRIALS

- Introduced 17 outstanding varieties to our trials this year.
- Includes 60+ varieties of Darwin Perennials plants.
- Provides the culture data you need to bring fresh products to retail with multiple ship dates throughout the Spring, Summer and Fall.

ADVANTAGES

- Learn how your growers can turn production space with Darwin Perennials varieties. This creates increased revenue and profit without investing in new production space.
- Retailers – increase color diversity to consumers.
- Landscapers – offer fresh color Spring, Summer and Fall.

Visit www.darwinperennials.com/Culture for a full, current listing and photos of all trialed varieties. You will also find compiled data from previous trials, additional culture and grower support information, as well as downloadable, easy-to-use scheduling tools.

NEW TO TRIALS:

NEW Achillea Milly Rock™ Yellow
NEW Lavandula Primavera
NEW Leucanthemum 'Whitecap'
NEW Nepeta Whispurr™ Series
NEW Phlox Super Ka-Pow™ Series

SAMPLE ONLINE SCHEDULING TOOL

Below is an example of the online scheduling tools you will find at darwinperennials.com/Culture/ProductionGuides.

This tool allows you to select a specific finish date and provides a transplant date along with best practices and growing protocols.

SALVIA MARVEL COLLECTION			
Program: Spring, Summer and Fall No vernalization required to flower		Colors: Blue, Rose, Sky Blue	
North: grown outdoor flowering window weeks 23-37			
South: grown outdoor flowering window weeks 19-40			
Spring - Early Summer Programs		Late Summer - Fall Programs	
Week color desired	23	Week color desired	40
Transplant Week	13	Transplant Week	33
		<i>*Plantings after week 25 finish faster</i>	
Finished Production Protocols:			
Qty.	1 ppp		
Container	2.5 qt		
Soil	Well drained that will dry between waterings pH 5.8 to 6.2		
Feed	Well balanced 125-150 ppm Periodic calcium based helps maximize nutrients		
Water	Dry between waterings - NO wilt Never saturate plants Leach regularly		
Pinching	Pinching generally not required. <i>Salvia nemorosa</i> are well branched Flower buds should be removed while plants are developing		
PGR	Under most conditions none needed Will respond to B-Nine/Cycocel at 1,500/800 ppm if needed		

DARWIN PERENNIALS ESSENTIAL CULTURE GUIDE

UPON RECEIPT

Unrooted perennials should be stuck as quickly as possible. Tender cuttings such as *Artemisia*, *Agastache*, *Lavandula*, *Perovskia* and *Salvia* should be immediate priority. Cuttings that cannot be stuck immediately should be maintained in a cooler at 40 to 45°F (4 to 7°C). Refer to the Propagation Guide for crop-specific suggestions. Generally speaking, herbaceous perennials benefit from a basal stem dip of IBA rooting hormone to speed up the rooting process. Be careful with misting levels. Perennials suffer from receiving too much mist more often than from too little mist.

Rooted perennials should be unpacked and inspected for active root growth. It is often preferable to place recently received perennial liners on a bench or the ground for a few days to help them overcome transport stress. This is particularly important for liners that have been shipped in boxes. Water on arrival and look for new root activity prior to transplant, if possible.

AT TRANSPLANT

Well-rooted and toned perennial liners are able to withstand transplant stress very well. Critical to success, provide newly transplanted perennials with immediate irrigation. Watering at the end of the transplant line rather than after you've filled a bed greatly improves uniformity of new root establishment. In any case, do not allow media surface to dry after transplant for the first several days until new roots are extending into the media. Perennials do not like to be planted too deep. Generally speaking, perennial liners should be planted level with the soil surface.

Use a well-drained media containing properly composted bark. These types of perennial soil media are readily available. It is important that the media incorporates a surfactant to help ensure proper wetting and re-wetting of the media. The media should be stabilized to a pH of 5.8 to 6.2 and an EC of 1 to 1.2 using the Saturated Media Extract (SME) method.

FERTILIZATION

Perennials can be fed using liquid fertilizers on a periodic or constant feed basis. Liquid fertilizer rates can be found in the Perennial Finishing Guide. Use a balanced formula that complements the pH and alkalinity of your irrigation water. Liquid fertilizing offers advantages of greater flexibility and control over fertility levels, but can be difficult to administer economically when overhead irrigation is used. In the case of overhead irrigation, controlled release fertilizers (CRF) are preferable. Incorporate CRF into the media prior to planting based on manufacturer's recommendations or top-dress after planting.

SPACING

Spring-planted perennials should be spaced to finished spacing after transplant. This allows better growing conditions and helps to avoid overcrowding and stretch. The added airflow will help reduce foliar diseases and allow for better insect control.

Fall-planted perennials can be spaced at transplant in temperate climates or placed pot-tight in climates where temperatures cause containers to freeze. In either case, proper spacing for the anticipated finished size of the plant will dramatically improve plant quality and reduce labor.

INSECTS AND DISEASES

Incoming perennial liners or cuttings should be inspected for pests and diseases. Apply appropriate treatments as needed.

After transplant, regular scouting and careful observation is critical to maintaining a healthy crop. The practice of integrated pest management (IPM) will reduce losses and pesticide costs by identifying and correcting problems before they escalate. If a pesticide treatment is necessary, please refer to the manufacturer's label regarding proper usage. It is always a good practice to test new varieties for phytotoxicity when making pesticide applications.

VERNALIZATION AND BULKING

A number of perennial species require a period of cold temperature exposure to flower. The length of time varies from just a few weeks below 50°F (10°C) to as much as 10 weeks below 40°F (4°C). Generally speaking, early Spring-flowering perennials like *Phlox subulata*, *Iberis* and *Alyssum* require a cold period to flower. Many perennials, such as *Salvia nemorosa*, *Monarda* and *Phlox paniculata*, do not require vernalization to flower, but do benefit from a cold, short day bulking period. In these cases, Summer or Fall planting increases root and crown mass, and the corresponding flowering shoots on the plants. It has also been shown to hasten flowering in many species by up to four weeks.

OVERWINTERING

The keys to success when overwintering perennials are:

- Avoid standing water
- Provide adequate air circulation
- Use preventative disease treatments
- Remove dead leaf/tissue
- Utilize rodent control
- Low media EC when entering dormancy
- Avoid freeze and thaw cycles

The overwintering area, whether in a field or hoop house, should be sloped so that rain or other water sources cannot accumulate. In climates where Winter conditions freeze and thaw, cover prior to freeze and uncover as soon as possible. Where temperatures remain below freezing, cover after first freeze and maintain the cover until late Winter or early Spring when weather moderates. Remove dead and abscising leaves from herbaceous perennials like *Hosta*, *Monarda*, *Heliopsis* and dormant *Hemerocallis*. Apply a broad-spectrum fungicide prior to covering or closing hoop houses to reduce disease pressure.

Once weather conditions moderate, be sure to scout for insect and disease problems, and respond accordingly. Also, check pH and EC levels in the media. Perennials that emerge from dormancy will begin to grow rapidly, and the lack of adequate nutrition will lead to reduced branching, lower leaf loss and smaller flowers.

	MIST	FERTILIZATION	PINCHING	TRANSPLANTING	COMMENTS
	Low to moderate	50-75 ppm N	Not necessary, remove premature flowers.	28-35 days after sticking	Do not over-mist.
	Low to moderate	50-75 ppm N	Pinch to remove flower buds.	35-42 days after sticking	Mist enough to rehydrate cuttings. Do not over-mist beyond Day 2 or 3. Do not stick cuttings too deep. Tall leaves can be trimmed if necessary.
	Low to moderate	50-75 ppm N	Not necessary, remove premature flowers.	28-35 days after sticking	Do not over-mist.
	Low to moderate	50-75 ppm N	Recommended after roots are established. Leave 4-5 active internodes.	28-35 days after sticking	Stick cuttings the day of arrival, if possible.
	Low	50-75 ppm N	Recommended. Soft pinch. Lower nodes may become inactive.	35-42 days after sticking	This alyssum requires light mist and soil moisture. Can be rooted under a dome or tent. Do not over-mist.
	Low	100 ppm N starting at Day 7	Not necessary.	42-45 days after sticking	Quite easy to propagate. Do not over-mist. Remove from mist after 10 to 12 days. Allow media to dry slightly between irrigations to encourage root development.
	Low to moderate	50-75 ppm N	Pinch once in the liner stage.	35-42 days after sticking	Discontinue mist as quickly as possible once rooting occurs.
	Moderate	50-75 ppm N	Pinch once in the liner stage.	28-35 days after sticking	Begin fertilizing 7 days after stick. Avoid over-misting.
	Moderate	50-75 ppm N	Pinch once in the liner stage.	35-42 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.
	Low	50-75 ppm N	Pinch once in the liner stage and once after transplant for best results.	35-42 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.
	Very low	50 ppm N starting at Day 7	Pinch to remove any flower buds.	42-49 days after sticking	Dianthus require very low mist settings to root. Over-misting will result in slow rooting and high losses in propagation.
	Low to moderate	50-75 ppm N	Not typical in propagation.	42-49 days after sticking	Digitalis root slowly with first roots showing 15 to 18 days after stick. However, it is best to discontinue mist prior to visible root, as they root more quickly when not over-misted and when media is allowed to dry slightly between waterings.
	Low; prefers high humidity to mist	50 ppm N starting at Day 7	Not necessary.	49-56 days after sticking	Please refer to our complete Tissue Culture Echinacea guide at DarwinPerennials.com for detailed rooting information.
	High for first few days, then reduce to moderate.	50-100 ppm N	Recommended.	42-49 days after sticking	
	Low to moderate	50 ppm N starting at Day 7	Yes, pinch once in propagation around Day 21.	42-49 days after sticking	Eupatorium are quite easy to root. Use a basal hormone tip to ensure rooting uniformity.

	MIST	FERTILIZATION	PINCHING	TRANSPLANTING	COMMENTS
	Low to moderate	75-100 ppm N when roots become visible; increase to 150-200 ppm N as roots develop	Yes, 7 days before transplanting.	35-42 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.
	Low to moderate	50-75 ppm N when roots become visible	Recommended after roots are established. Leave 4-5 active internodes.	35-42 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.
	Moderate	50-75 ppm N	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.	42-49 days after sticking	Pinch once in the liner stage.
	Low	Feed at 100 ppm N after 9 days	Pinch once shoots elongate for best branching.	35-42 days after sticking	Typically remove from propagation area after two weeks. Don't keep rooting media excessively wet. Use long-day lighting when propagating when day length is less than 12 hours.
	Low	50-75 ppm N when roots become visible	Recommended after roots are established. Leave 4-5 active internodes.	35-42 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation. Long day obligate plant. Must provide long days in propagation.
	Low to moderate	50-75 ppm N after 14 days	Not necessary.	35-42 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.
	Low to moderate	50-75 ppm N when roots become visible	Recommended after roots are established. Leave 4-5 active internodes.	28-35 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.
	Low to moderate	50-75 ppm N when roots become visible	Recommended after roots are established. Leave active internodes.	28-35 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation. Cuttings typically arrive with flowers already induced due to cool night temperatures in Colombia. Non-induced cuttings require 6 weeks of night temperatures below 55°F (13°C) to flower.
	Low to moderate	100 ppm N starting at Day 10	Yes, pinch after 4 weeks. Can be double pinched in the liner stage for even greater branching.	42-49 days after sticking	Iberis benefit from a basal IBA dip prior to sticking. Do not over-mist or high losses can occur.
	Low; prefers high humidity rather than mist.	50-75 ppm N	Recommended.	42-56 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.
	Low; prefers high humidity rather than mist.	50-75 ppm N	Recommended after roots are established. Leave 4-5 active internodes.	42-56 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.
	Low; prefers high humidity rather than mist.	50 ppm N starting at Day 7	Recommended after roots are established. Leave 4-5 active internodes.	42-56 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.
	Low	50-75 ppm N	Not typically necessary.	42-56 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C). Remove flowers in propagation.
	Low to moderate	75-100 ppm N starting at Day 7	Pinch while young plants are soft and actively growing.	35-42 days after sticking	Pinch any premature buds as they become visible.
	Low to moderate	50 ppm N starting at Day 7	Pinch 21 days after sticking.	35-42 days after sticking	For fastest, most reliable rooting, do not oversaturate rooting media.

	MIST	FERTILIZATION	PINCHING	TRANSPLANTING	COMMENTS
	Moderate	50-75 ppm N	Recommended.	28-35 days after sticking	Do not oversaturate rooting media. Use long-day lighting when day length is less than 12 hours to keep plants actively growing.
	Low to moderate	50-75 ppm N	Yes, pinch 14-18 days after stick.	35-42 days after sticking	Nepeta root easily. Over-misting causes slow rooting and leaf spot diseases.
	Moderate	50-75 ppm N	Recommended.	35-42 days after sticking	Roots quickly. Plan to pinch in liner tray.
	Moderate	50-75 ppm N	Recommended.	35-42 days after sticking	Roots quickly. Plan to pinch in liner tray.
	Moderate to high for first 24 hours, then reduce to low.	50-75 ppm N	Recommended.	35-42 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C).
	Moderate to high for first 24 hours, then reduce to low.	50-75 ppm N	Recommended.	35-42 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C).
	Low to moderate	50-75 ppm N when roots become visible	Recommended.	35-42 days after sticking	Use low mist settings; do not oversaturate rooting media.
	Moderate to high for first 24 hours, then reduce to low.	50-75 ppm N after 10 days	Recommended.	35-42 days after sticking	Do not oversaturate rooting media. Allow media to dry moderately starting 10 days after sticking to encourage root development.
	Low to moderate	75-100 ppm N starting at Day 7	Yes, while young plants are soft and actively growing. Allow at least two leaf internodes at each pinch.	42-49 days after sticking	Plants grow more actively under long days. Use 13-hour extended day lighting for Winter propagation.
	Moderate	50-75 ppm N	Recommended after roots are established. Leave 4-5 active internodes.	35-42 days after sticking	Use low mist settings; do not oversaturate rooting media. Root zone temperatures of 70°F (21°C).
	Moderate	50-75 ppm N	Recommended after roots are established. Leave 4-5 active internodes.	35-42 days after sticking	Begin fertilizing 7 days after stick.
	Moderate	50-75 ppm N	Recommended after roots are established. Leave 4-5 active internodes.	35-42 days after sticking	Roots quickly. Plan to pinch in liner tray.
	Low	50-75 ppm N at Day 7	A soft pinch will increase branching.	35-42 days after sticking	Discontinue mist as quickly as possible and only mist to avoid leaf wilt. Begin feeding 7 days after sticking with 50-75 ppm N.
	Low	50-75 ppm N at Day 7	A soft pinch will increase branching.	35-42 days after sticking	Discontinue mist as quickly as possible and only mist to avoid leaf wilt.

	MIST	FERTILIZATION	PINCHING	TRANSPLANTING	COMMENTS
	Low	50-75 ppm N at Day 7	A soft pinch will increase branching.	35-42 days after sticking	Discontinue mist as quickly as possible and only mist to avoid leaf wilt. Begin feeding 7 days after sticking with 50-75 ppm N.
	Low	50-75 ppm N at Day 7	A soft pinch will increase branching.	35-42 days after sticking	Over-misting and saturated propagation media will dramatically delay rooting and increase rooting losses. Discontinue mist as quickly as possible and only mist to avoid leaf wilt.
	Low to moderate	75-100 ppm N starting at Day 10	Typically not necessary. Remove premature flower buds as they appear.	42-49 days after sticking	Scabiosa cuttings are sensitive to over-misting and over-watering in propagation.
	Very low	50-75 ppm N	Typically not necessary in propagation.	35-42 days after sticking	Do not over mist. Over saturated rooting media will slow the rooting process and contribute to stem rot. Remove from mist environment as soon as roots appear.
	Moderate	50-75 ppm N	Recommended after roots are established. Leave 4-5 active internodes.	35-42 days after sticking	Roots quickly. Plan to pinch in liner tray.
	Moderate	50-75 ppm N	Recommended after roots are established. Leave 4-5 active internodes.	35-42 days after sticking	Roots quickly. Plan to pinch in liner tray.
	Moderate	50-75 ppm N	Recommended after roots are established. Leave 4-5 active internodes.	35-42 days after sticking	Roots quickly. Plan to pinch in liner tray.
	Moderate	50-75 ppm N	Recommended after roots are established. Leave 4-5 active internodes.	35-42 days after sticking	Roots quickly. Plan to pinch in liner tray.
	Moderate for first 24-48 hours, then reduce to low.	50-75 ppm N at Day 7	Soft pinch recommended 25-28 days after sticking.	35-42 days after sticking	Excessive media moisture will slow rooting. Begin fertilizing at Day 7 with 75 ppm N.

TERMS & CONDITIONS OF SALE

NOTE: DARWIN PERENNIALS IS A DIVISION OF BALL HORTICULTURAL COMPANY (BALL). DARWIN PERENNIALS TERMS & CONDITIONS OF SALE ARE COUNTRY/ REGION SPECIFIC. VISIT DARWINPERENNIALS.COM FOR CURRENT TERMS & CONDITIONS. THE FOLLOWING TERMS & CONDITIONS OF SALE APPLY TO UNROOTED CUTTINGS OR ROOTED LINERS SOLD BY BALL WITHIN THE UNITED STATES AND CANADA.

ACCEPTANCE OF TERMS

These terms and conditions shall govern orders for plants, supplies and other materials (merchandise) placed with Seller. All negotiations with sales representatives or other agents of Seller are merged herein. No modification of these terms and conditions shall be effective unless in writing signed by Seller. Placement of the order shall constitute Purchaser's acceptance of these terms and conditions. All orders are subject to acceptance by Seller at our offices in West Chicago, Illinois.

LIMITATION OF WARRANTY

Seller warrants, to the extent required by law that merchandise conforms to the description appearing in Seller's catalog and on container labels, within recognized tolerances. SELLER MAKES NO OTHER OR FURTHER WARRANTY, EXPRESS OR IMPLIED. ALL OTHER OR FURTHER WARRANTIES, INCLUDING ANY WARRANTIES OF MERCHANTABILITY, TITLE, NON-INFRINGEMENT, AND FITNESS FOR A PARTICULAR PURPOSE, ARE EXCLUDED. Certain merchandise may be separately warranted by the manufacturer. Seller does not adopt or ratify any manufacturer warranties, express or implied, and Seller shall have no liability thereunder. Seller does not adopt or ratify any manufacturer warranties, express or implied, made by Purchaser upon resale of the merchandise, and Seller shall have no liability thereunder.

LIMITATION OF REMEDY

PURCHASER'S SOLE AND EXCLUSIVE REMEDY SHALL BE REFUND OF THE PURCHASE PRICE. SELLER'S LIABILITY, WHETHER FOR BREACH OF CONTRACT, BREACH OF WARRANTY, NEGLIGENCE, PRODUCTS LIABILITY OR ANY OTHER THEORY OF LIABILITY, IS LIMITED TO THE AMOUNT OF THE PURCHASE PRICE. UNDER NO CIRCUMSTANCES SHALL SELLER BE LIABLE FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE, OR FOR ANY SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES.

MANDATORY ARBITRATION

ANY CLAIM WHICH PURCHASER MAY HAVE AGAINST SELLER ARISING OUT OF OR RELATING TO THE SALE OF THE MERCHANDISE SHALL BE SETTLED BY BINDING ARBITRATION IN ACCORDANCE WITH THE COMMERCIAL ARBITRATION RULES OF THE AMERICAN ARBITRATION ASSOCIATION. SAID ARBITRATION TO BE VENUED IN COOK OR DUPAGE COUNTIES, ILLINOIS.

GOVERNING LAW, JURISDICTION & VENUE

The laws of the State of Illinois, including but not limited to the Uniform Commercial Code as adopted therein, shall govern all matters arising out of or relating to Seller's sale of merchandise. ANY DISPUTE NOT SUBJECT TO ARBITRATION AND ANY ACTION TO ENFORCE AN ARBITRATION AWARD ARISING OUT OF OR RELATING TO THE SALE OF MERCHANDISE HEREUNDER SHALL BE MAINTAINED IN THE STATE OR FEDERAL COURTS LOCATED IN DUPAGE OR COOK COUNTIES, ILLINOIS, AND PURCHASER SUBMITS TO THE JURISDICTION OF AND VENUE IN SAID COURTS.

INDEMNITY

By accepting merchandise, Purchaser agrees to defend Seller, to hold it harmless and indemnify it from and against any claim or loss asserted by any or all transferees of such merchandise or users of the products of such merchandise who are not notified by Purchaser in writing of Limitation of Warranty, Limitation of Remedy, Mandatory Arbitration, Governing Law Jurisdiction and Venue in language substantially equivalent to that contained in these Terms and Conditions of Sale.

PRICES

All prices are subject to change without notice. The price in effect at time of shipment will prevail. Prices do not include installation; Seller takes no responsibility, and shall have no liability for installation. Additional processing and handling charges may be added.

PAYMENT

Payment is due in invoiced currency and in accordance with the terms specified on invoice. In the event of default in the payment of any amount when due, and in addition to all other rights and remedies available to Seller, SELLER SHALL BE ENTITLED TO COLLECT A LATE CHARGE OF 2% PER MONTH (24% PER YEAR) OR THE MAXIMUM RATE ALLOWED BY LAW, WHICHEVER IS LESS, ON ALL AMOUNTS PAST DUE FROM THE DATE DUE UNTIL THE DATE PAID. A FEE OF \$25.00 WILL BE CHARGED FOR ANY RETURNED CHECK, DECLINED EFT TRANSACTION OR DECLINED BANKCARD TRANSACTION.

If paying by Pre-Authorized Debit (PAD), or EFT, please note you have waived your right to receive pre-notification of the amount of the PAD and agreed that you do not require advance notice of the amount of PADs before the debit is processed. You have certain recourse rights if any debit does not comply with these terms. For example, you have the right to receive a reimbursement for any PAD that is not authorized or is not consistent with this PAD agreement. To obtain more information on your recourse rights, contact your financial institution.

FREIGHT & HANDLING CHARGES, INSPECTION, DAMAGED GOODS

The freight and handling charge on Purchaser's invoice covers shipment of the merchandise to Purchaser's destination, and replacement or credit for damaged merchandise if the steps listed here are followed. PURCHASER WILL NOT REFUSE OR RETURN GOODS, OR THE RIGHT TO FILE A CLAIM IS LOST AND PURCHASER WILL STILL BE LIABLE FOR THE MATERIAL AND THE FREIGHT. When Purchaser receives shipment: 1) Count all cartons. 2) Inspect all cartons for external damage. 3) Check for open or resealed cartons. 4) Note any damages, shortages, open or resealed cartons on the delivery receipt; the carrier's representative must also sign the receipt. 5) Open all boxes immediately and inspect for damage such as scorched, frozen or broken plants; material shortages; etc. NOTIFY SELLER IMMEDIATELY IF A SHIPMENT IS DAMAGED. Call your sales representative to report the damage and receive details on what is needed to file a claim.

CANCELLATION POLICY

Cancellations for unrooted cuttings must be received at least thirty (30) days prior to scheduled ship date. Cancellations for liners must be received prior to stick or sow date.

NOTICE & RETURN

Seller shall have no liability for any defect unless notice is given promptly, not to exceed thirty (30) days after such defect is or should have been discovered. No merchandise may be returned without Seller's prior written authorization.

DELAYS, SHORTAGES & SUBSTITUTIONS

Seller shall not be responsible for delays in delivery or for losses resulting from such delays. Seller reserves the right to make partial shipment. In the event of shortages, Seller may substitute such other, similar merchandise as is available.

PLANT PROTECTION

Varieties described herein may be covered by the Flowering-Only Terms and Conditions of Sale Agreement, United States Plant Patents, United States Plant Variety Protection, Utility Patents, and Plant Breeders' Rights. These varieties may not be reproduced without authorization. The breeder or authorized representative has the right to inspect customers' nurseries during normal business hours to assess compliance with the restrictions on use of protected varieties.

TRADEMARKS

® denotes a U.S. registered trademark and ™ denotes a trademark of Ball Horticultural Company, unless otherwise indicated.

SALES LIMITATIONS

EXPORT CONTROL. THE COMPANY'S PRODUCTS MAY NOT BE SOLD, DIVERTED, TRANSFERRED OR RE-EXPORTED, DIRECTLY OR INDIRECTLY, TO ANY INDIVIDUAL, ENTITY, OR DESTINATION THAT IS SUBJECT TO UNITED STATES OR UNITED NATIONS SANCTIONS PROGRAMS OR EMBARGOES (INCLUDING BUT NOT LIMITED TO OFAC SANCTIONS PROGRAMS AND THOSE LISTED ON OFAC'S "SPECIALLY DESIGNATED NATIONALS" LIST) WITHOUT AN APPROPRIATE EXPORT LICENSE.

FOREIGN CORRUPT PRACTICES ACT. EACH PARTY REPRESENTS AND WARRANTS TO THE OTHER PARTY THAT IT WILL TAKE NO ACTION IN RELATION TO THIS TRANSACTION THAT WOULD BE IN VIOLATION OF THE APPLICABLE LAWS AND REGULATIONS OF ANY COUNTRY AND THE UNITED STATES OF AMERICA. NO PAYMENTS OF MONEY OR ANYTHING OF VALUE WILL BE OFFERED, PROMISED OR PAID, DIRECTLY OR INDIRECTLY, TO ANY OFFICIALS TO INFLUENCE THE ACTS OF SUCH OFFICIALS TO INDUCE THEM TO USE THEIR INFLUENCE WITH A GOVERNMENT OR AN INSTRUMENTALITY THEREOF, OR TO OBTAIN AN IMPROPER ADVANTAGE.
